RE: Forthcoming Resource Materials

The following information is a heads-up related to state published "resource" materials that will be forthcoming to regional library systems via ILDS for distribution to designated types of member libraries. The Illinois State Library anticipates this chart will assist as a delivery planning resource for all agencies involved in the delivery process. Even though some of the information is limited, the Illinois State Library will make the delivery stakeholders aware of the details as soon as possible.

RESOURCE	DESCRIPTION	DISTRIBUTE TO	DISTRIBUTION WILL BEGIN
Bookmarks (Stay Alive for the Drive)	Secretary White letter and packet of bookmarks	Public Libraries	First week of February
Illinois Literacy	Newsletter (published quarterly)	Public Libraries	Second week of February
Guide to the Secretary of State Literacy Effort	Booklet (published annually)	Public Libraries	Second week of February
Organ Donor Month materials	Probably bookmarks and posters	Public (and perhaps academic libraries)	March
Directory of Illinois Museums	Directory (published annually)	All libraries	?
