## **THE WHITE HOUSE'S SUMMER OF SERVICE PROJECT**

Summer of Service is a "national coalition of major youth-serving organizations that are committed to engaging youth in service during the summer months and recognize the potential of youth to identify issues, develop projects, and provide lasting benefits to the communities in which they live through volunteer service." Libraries and other organizations that work with youth ages 5 to 21 are encouraged to participate.

Beginning the week of June 8, 2009, libraries and other organizations will be invited by the White House to list their local volunteer opportunities online. On June 22, the White House will announce the initiative to the public at large. The initiative will conclude on September 11, 2009.

The American Library Association will be disseminating information and resources as they become available. Stay tuned for volunteer ideas, best practices, resources, and ways to contribute your own information, ideas and stories at [www.ala.org/summerofservice](http://www.ala.org/summerofservice).

Last year the Mississippi Valley Library District opened this Library in one of the buildings of the Holy Rosary School in Fairmont City. The small community of 2500 people enjoyed having a library so much that when it was scheduled to close in August, the American Legion offered space for the Library to move into its building. It has been a success story ever since -- more books, more audios and DVDs, more computers and best of all, more people month after month.

To celebrate, the staff at the Fairmont City Library Center will host a Birthday Celebration with treats, games and fun and they are hoping that everyone will stop by.

Come by for the Party!!
