

## **Plates in the 300 Field**

In order for something to be a plate, it must not be numbered, or it must have separate numbering. If pictures are printed on shiny paper, and look like plates, but are numbered consecutively with the pages, they are not considered plates.

[6] p. of plates - Plates with something on both sides, no separate numbering.

6 p. of plates - Plates with something on both sides, numbered 1-6.

[8] leaves of plates - Plates with something on only one side, with no numbering.

8 leaves of plates - Plates with something on only one side, numbered 1-8.
